

IRENEUS ALNO SABETHA

087734575623 | alnosabetha09@gmail.com | www.linkedin.com/in/ireneus-alno | https://alno-portfolio-nine.vercel.app/

Software Engineer experienced in full-stack web development, backend engineering, API design, and SaaS product development. Skilled in building scalable software systems from architecture to deployment, with additional exposure to IoT system integration. Passionate about solving real-world problems through clean architecture and practical engineering.

Experience

PT Infra Datatech Indonesia - Semarang, indonesia <i>Fullstack Developer Intern</i> Laravel, PHP, Postgres - Developed IoT-integrated backend services and web dashboards using Modular Monolith architecture. - Built real-time APIs and improved system reliability through monitoring and troubleshooting.	Feb 2026 - Present
Queen Rebecca Indonesia - Yogyakarta, indonesia <i>IT Staff Intern</i> - Developed and maintained Nuxt.js and NestJS applications, delivering new features and workflow improvements. - Resolved application and database issues while supporting deployment and code quality initiatives.	Aug 2024 - Mar 2025
Freelance Project - Yogyakarta, Indonesia <i>Freelancer</i> Developed a centralized leave management system using Laravel and MySQL, streamlining employee leave submission and approval workflows through well-defined business processes and system architecture. Designed relational database structures, implemented the MVC pattern to ensure maintainability and scalability, built responsive user interfaces with Bootstrap, and managed version control and project documentation using GitHub to support collaboration and long-term system maintenance.	Mar 2023 - Aug 2023

Education Level

Universitas Kristen Duta Wacana - Yogyakarta <i>Bachelor of Information System, 3.10/4.00</i> - Focused on software engineering, web development, RESTful APIs, system design, and automated testing. - Built a Laravel-based campus room reservation system as part of academic projects.	Sep 2019 - Feb 2026
--	---------------------

Projects

Ticketing Platform Developed a web-based event ticketing platform that streamlines event management, online ticket sales, QR code-based check-in, and attendee management through a centralized system.	May 2026 - Present
AI Language Learning Assistant Developed RAYA, an AI-powered English conversation learning platform that leverages LLM, Speech-to-Text (STT), and Text-to-Speech (TTS) technologies to provide interactive speaking practice and conversational learning experiences.	Jun 2026 - Jul 2026
Smart Cafe System Designed and developed a Smart Café System integrating a POS, self-service kiosk, and automated beverage dispensing into a unified platform. Focused on system integration, operational automation, and improving service efficiency through technology.	Jun 2025 - Nov 2025

Skills

Software Engineering: SDLC, Microservices Architecture, System Integration, Software Deployment Backend: Node.js, NestJS, FastAPI, RESTful API Development, API Integration Frontend: Next.js, Tailwind CSS, Shadcn, React Expo Database: PostgreSQL, MySQL, Prisma ORM, Database Design Tools & DevOps: Git, GitHub, Docker, Postman Soft Skills: Team Collaboration, Cross-functional Communication, Adaptability, Problem Solving, Systems Thinking
